

# eMedication Projectathon 2021 : Registration Webinar

Alain ESCHLIMANN  
[alain.eschlimann@ihe-europe.net](mailto:alain.eschlimann@ihe-europe.net)

- **Quick reminder on Projectathon**
- **Participation to the eMedication Projectathon**
- **Testing Process**
- **Registration process**

- **Goals of the Projectathon :**
  - Test interoperability of systems
  - Test the compliance to specifications
  - Put the specifications to the test
- **Event in two phases :**
  - Preparatory phase where systems test against simulators
  - Online event : three-days-long testing event where systems are testing against each other
- **Main benefits**
  - Fast debugging : you are allowed to fix issues, recompile and retest as many times as needed during the event
  - Cooperation between participants
  - Social Networking

- Communication
  - [https://groups.google.com/forum/#!forum/epd\\_projectathon](https://groups.google.com/forum/#!forum/epd_projectathon)
- No registration fee, but still need a contract from Gazelle for your registration
- Useful links :
  - Specifications :  
<https://www.e-health-suisse.ch/en/technik-semantik/epr-projectathon/epr-programming-aids/relevant-specifications.html>
  - Documentation for the Gazelle Plateforme :  
<https://ehealthsuisse.ihe-europe.net/gazelle-documentation/>
  - Training material : <https://gazelle.ihe.net/training>

In practice, how does it work?

### 1. Create an account and register your system

- List of the Actors/Profiles you want to test

### 2. Share your configuration in Gazelle Test Management

- Allows other participants to reach out to your system

### 3. Execute preparatory test cases

- Tests with simulators to improve your confidence in your system and familiarize yourself with the tooling
- Connectivity testing with other participants to ensure you will be able to exchange messages with your test partners during the event

### 4. Testing during the event

- The test plan is available in Gazelle TM (will be updated soon)
- Test execution (finding a partner, uploading and validating test proofs...) is done through the tools of the Gazelle plateforme
- Tests verification and validation done by monitors during the event

### Communication during the event

- Rocket.Chat (open source software)
- [pat.chat.ihe-europe.net](https://pat.chat.ihe-europe.net)
- Communication via channels, private group, direct messages...
- Video calls with jitsi

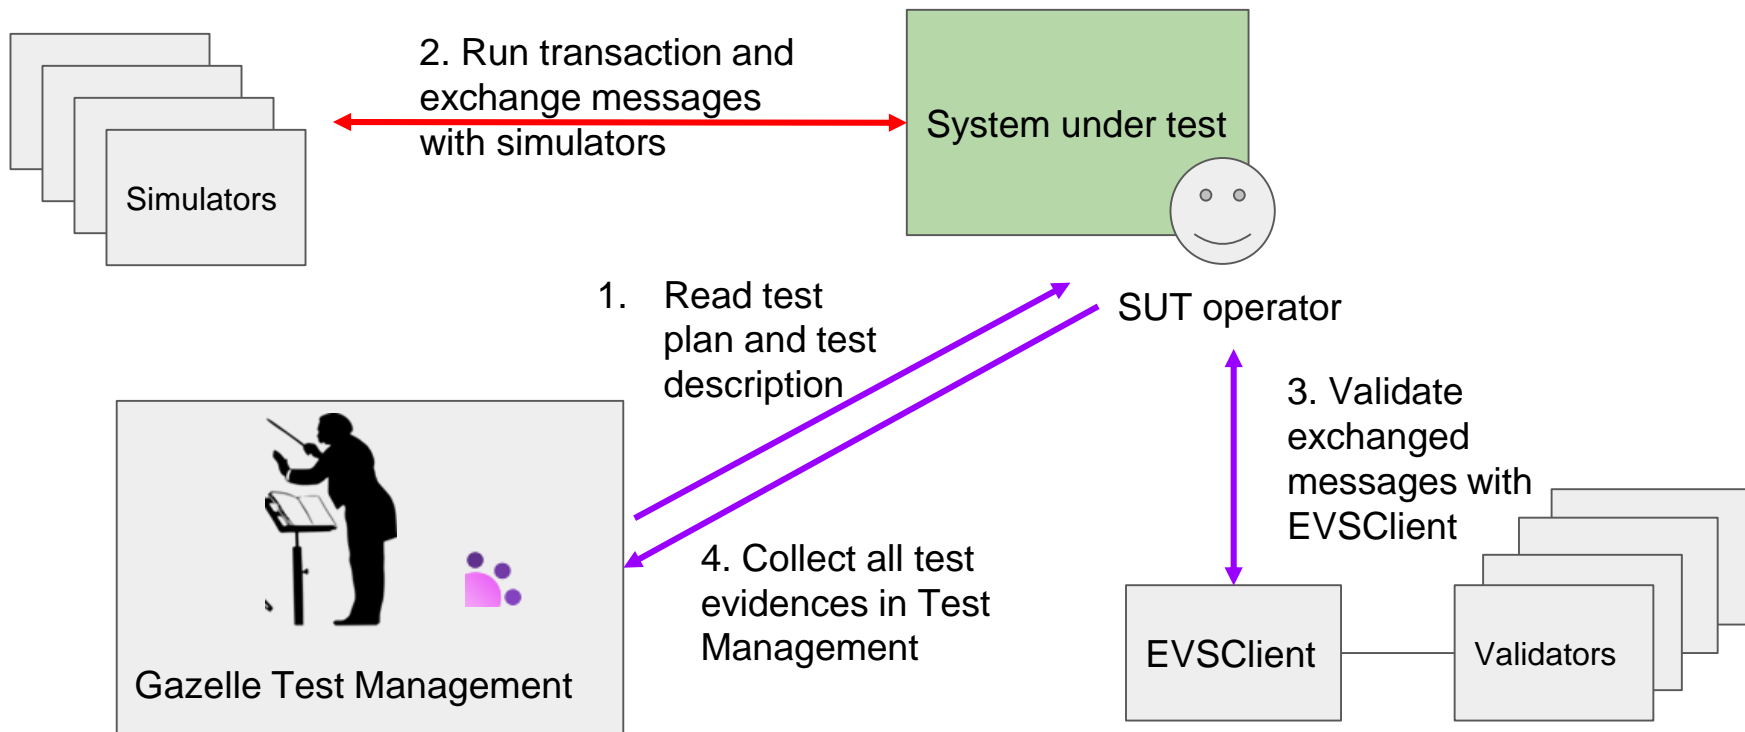

## Main platform

- EPR Gazelle test platform <https://ehealthsuisse.ihe-europe.net>

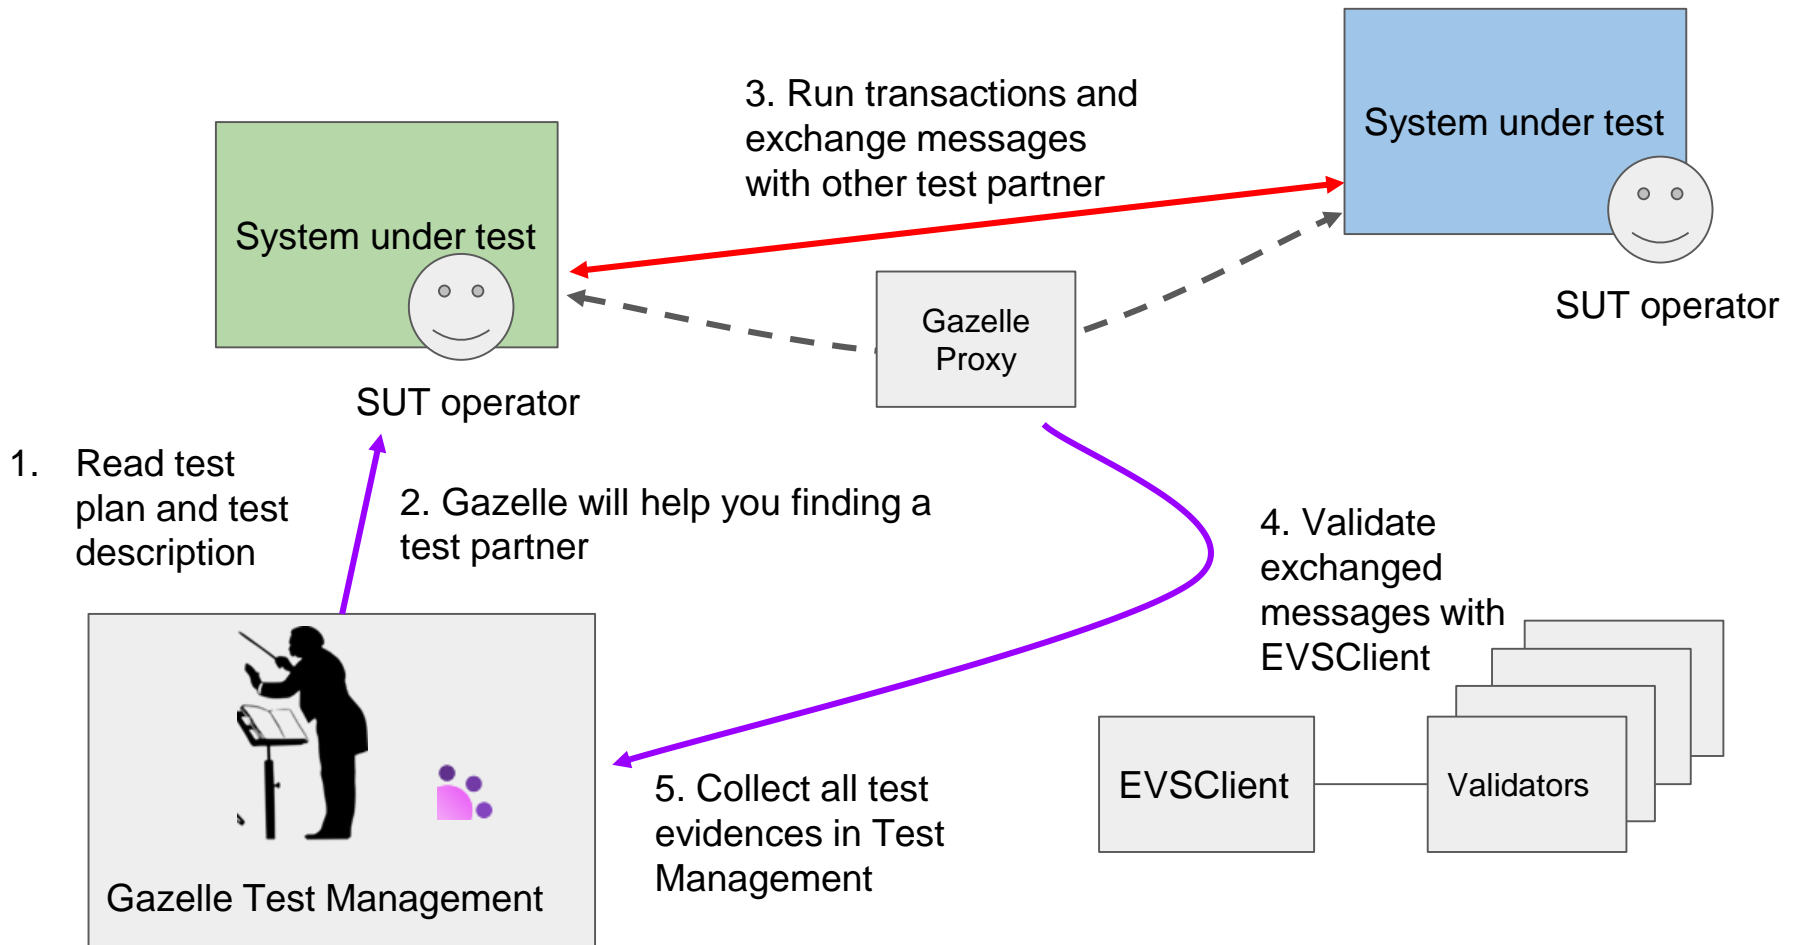

## Pre-testing phase

## Event on-site phase

### Registration to the event

1. Registration on Gazelle Test Management <https://ehealthsuisse.ihe-europe.net/gazelle/home.seam>
  - Registration process documentation : <https://ehealthsuisse.ihe-europe.net/gazelle-documentation/Test-Management/user.html#registration-process>
2. New participants need to create an institution and an account in Gazelle TM
3. Select Test session **eMedication Projectathon 2021- online**
4. Register your system for available profiles and actors
5. Register users
6. Generate the contract
7. Send the contract signed by you (email addresses provided in the contract)

# Q&A Session
